

Hello, I'm
Aaron Ace Tangcay

Course/Year/Section:
BS-IT 2nd Year InTec-2B

About Me

I am a passionate games programmer and photographer focused on creating immersive experiences through code, light, and composition, blending technical creativity with authentic visual storytelling.

Skills & Career Goals

My goal in life is to grow into the best version of myself by pursuing my passions, developing my skills, and achieving the dreams I've set for myself.

I want to create meaningful work, live with purpose, and build a life that reflects what I truly want and value.

Hobbies

- "I love movies, photography, and gaming."
- "Movies, cameras, and games keep me busy."
- "I spend my free time gaming, taking photos, and watching movies."
- "Films, photos, and fun games are what I enjoy most."

Likes

- "I enjoy cooking, animating, and building plastic models."
- "Cooking, animating models, and building plastic models are my hobbies."

Thanks for Watching/ Reading

My hobbies, like cooking, animating models, and building plastic models, give me a chance to explore my creativity. They allow me to focus on something I enjoy and see the results of my effort, which is always satisfying.

These activities also help me relax and make my free time meaningful. Through them, I learn patience, develop new skills, and have fun at the same time.
